## PROTOXODOURFREE

ProtOX Odourfree is an effective remedy for removing bad odours, also on "soft" surfaces like upholstered furniture, textiles (shoes, sportswear etc.), blankets, etc.

ProtOX Odourfree is a professional odor detergent based on a combination of chemical and biological odor remediation. The product catches and holds the odours and the microorganisms break down the bad smells.

### Application:

ProtOX Odourfree can be used on all surfaces, but is particularly applicable to "soft" delicate surfaces such as, for example, upholstered furniture, shoes, sportswear and other textiles and blankets, but ProtOX Odourfree can also be used in, for example, waste containers.

### Contents:

ProtOX Odourfree contains no fragrances or fragrances and therefore does not "overdo" the bad odor, but the composition of the product causes the odors to be encapsulated and degraded by the microorganisms. The microorganisms ensure a long lasting effect.

ProtOX Odourfree is effective against a wide variety of odors like urine (dog / cat / human), tobacco smoke, sweat and "waste", even butyric acid is degraded by ProtOX Odourless.
